Yes, we are planning now.

A separate question, do you know when the LDC working groups are for this week?

We are planning to send a letter to utilities today about what they need to do to their systems for OESP changes May 1st. I will share with you shortly FYI. We want to bake in a time for a question / answer conference call Wednesday or Thursday.

D.

Donna,

Can you please remind me – is there another wave of communications in the works?
