Subject: Re: FN delivery credit data

Yes, will get supporting data to you. Meantime, we've been asked to post the fnrates report tomorrow and are taking steps to do so. No active comms is planned but reactive messaging is being compiled - I expect in cooperation with ministry.

 Hey Ceiran! Have been meaning to call you to catch up, but the days keep escaping me...

We are in full implementation mode for RRRP and the First Nation delivery credit (FNDC...that's our acronym for it ☺). Would you please be able to send the data/analysis related to the FN delivery credit. We will need to work with Treasury Board to ensure our forecasting and amounts being requested are as accurate as possible and we'll have a number of report backs to TB as you can imagine. We just used the \$20M from the report to let TB know the range of what this could cost, but for reporting purposes we are going to need to drill down into the details.

Thanks, I hope you're doing well.

-Sunita
