Hi Jo-Anne,

Those versions looked more up to date. They had the relevant changes we made for the Q2 OER. Thanks.

I have attached a copy of the documents with our changes. For the most part, there are no changes to the OEB's section from the Q2 OER. I just changed some Q2 references to say Q3 instead. The table for distribution connected industrial customers should be the same as it was in the Q2 report. I also updated a few references to the What's New document.

Please let me know if you have any questions.

Regards,

Hi Stephen,

My apology, I'm picking these documents up from Alyssa Diamond who has left the Ministry. These are the two templates I've been able to locate from Q2. Alternatively, would the changes you're looking for be in the template you returned or in the published OER? If not I will reach out to Alyssa.

Jo-Anne,

It looks like the documents you sent are based off a much older version of the OER. We made some changes for the Q2 OER that are not reflected here. Those changes should apply to this version of the report. Do you a more up to date version I could review? It would save me from having to make the same edits a second time.

Thanks,

Stephen Vetsis
