Hi Marc,

Sorry for the delay. We have been very busy here and I haven't been able to devote my attention to rate issues. I'm going to try to go through this and get back to you on Monday. I don't think I will be able to finish today as I have some things this morning I need to attend to.

I do appreciate you getting this to me, as it is useful and we often get rush requests on issues related to rates.

Regards,

Stephen

Can you we touch base tomorrow morning and hopefully reach a conclusion?

I've attached the latest BI report.

Thanks,

Hi Mark,

Thanks very much. My group has been swamped but I will be getting back to this next week. I'm not sure this format will be as useful to me as before. What we are really looking to see is the effect of various LDC rate changes. Since LDC rates typically change in January and May, I think that column C should really be December 31 2017. That way, we can see the May 1 2018 and January 1 , 2018 impacts – unless I'm not looking at it correctly.

I'd be interested in knowing your thoughts. We can chat if that would be better.

Thanks

Stephen,

Sorry for the late response.

Here is an updated version of the Bill impacts starting with May 1, 2017.

I think this best represents what has happened over the past year.

Hi Marc,

Maybe we should chat so I can understand what you are trying to achieve. July 2017 was when the FHP was fully implemented – but even in May 2017, the OEB reduced the RPP and removed OESP from the regulatory charge.

What I think is more useful is to compare the dates of rate changes, so for now, I think Jul 1 makes more sense.

I've been caught up in some rush work, so I haven't had a chance to finish looking at the Bill Impact Sheet yet. I will hopefully be able to get comments to you by the end of the week.

My number is 416-212-0426 if you want to chat.

Hey Marc,

Hope all is well with you. Since May 1 is quickly approaching and I think most of the 2018 rate orders are done (or almost done – except for Hydro One Networks and a few other exceptions), I thought I would send you a note to see if we could get an updated Bill Impact Sheet. As I was looking through my e-mails for your address, I realized that I don't think I received an updated report based on our last exchange, of if I did, I misplaced it.

Not to worry, since we have been very busy in my unit – and I'm sure you have been too. Would it be possible to get an update with the May 1st rate orders, at least as they currently stand? I think there may be one or two more that are imminent (Westario, InnPower) – and few other that will be not be (HONI, Sioux Lookout). So we could wait for the ones that will be out in the next few days.

Maybe you could let me know if that's feasible.

Thanks

Hi Marc,

Sorry for the delay in responding.

The format looks good to me, comparing Dec31/17 and Jan1/17 with Jan 1/18, and also including DRP where applicable.

I have just a few comments or questions.

The 2018 rate for Algoma Power doesn't look right to me. With DRP, I calculated the monthly amount at 750kWh to be \$37.40 (the original without DRP is \$55.07). Perhaps I am mistaken, but maybe you could take another look. For Parry Sound – the only other LDC that would get DRP for 2018 rates at this point, it looks fine.

I would combine CNPI into one category, since all their areas have now been harmonized (Fort Erie, Port Colborne, Eastern). I calculated \$39.37 for distribution – probably a rounding error.

For Lakeland Power (excluding Parry Sound) – I believe this is effective May 1, not Jan 1. The distribution number looks correct, but could you check transmission and line loss?

The only other thing I saw was a discrepancy in Toronto Hydro residential – not much, but I got \$39.41. I didn't check the multi-unit rate. Also, I didn't look at the 2017 numbers.

Hope this helps. Let me know if there is anything else.

Cheers

Thank you for getting back to me.

What you have proposed is reasonable and adds structure to this process.

I'll clean up the report and the next run will be once the Board issues rate orders for the Jan 1st filers.

Looking forward to working with the both of you.

Hi Marc,

After looking over, I think it would be best for us if the report stayed pretty much as is. I have been looking at the report dated May 1, 2017, which I think is the last version of the report that was shared. The only columns that I think we could dispense with are the last 2 columns (**Change in Delivery Only A-B**). In the May report, this appears to be comparing May to the previous December, and seems to repeat what the first set of columns (A-B) show. The only difference is the calculation at the bottom which appears to show the **delivery impact only** on total bill. I think

we can calculate this ourselves if we need it.

If this helps to simplify things for you somewhat, then I think we are comfortable with that change. Other than that, I think we would like you to continue producing the report, perhaps 2-3 times per year (e.g., after the majority of the January rate orders are released, again after the majority of the May rate orders are released, and then perhaps in September after some of the late comers are approved). There may be exceptions to this – namely, whenever rate orders for Hydro One Networks, Alectra, and Toronto Hydro are issued – because there is heightened interest in these files at the Ministry.

Does this sound reasonable to you? Please let me know, and also please accept my apology for my late response. I have been distracted from this in the last few weeks due to a number of extraneous issues that have come up. However, I consider this report that you produce to be quite an important product for us. I also think that a few others (stakeholders who want to look at rates) might find it useful, although I suspect that general members of the public probably find the bill calculator more useful.

Hope this helps, and thanks for your patience. If you would like to discuss further, please let us know.
