Subject: OESP Application Status at October 5th

I am sending a day early as I am on vacation tomorrow.

All communications for Wave 2b are now in the field. Average daily application numbers were up this weekend compared to the last two weekends (205 per weekend day vs 115). Trend for the first few days of this week is also for higher per weekday numbers although they are (right now) below our projection for 4,800 this week – trending towards 3,600. As we received higher than projected in the summer, our overall year-end projection is still looking well at this point and we will continue to closely monitor while communications are in market.

Applications Submitted	230,580
