Good Morning:

DMO will share the news shortly, but FYI - Minister's Briefing on COO in the SOO will be advanced today to occur at 2.15-3.15pm.

Sorry for the disruption in your day this may cause.

And hope that folks who are attending in the SOO can still make it to the earlier timeslot briefing?

Many thanks, in advance.

Atel/

Please let me know if you should have any further questions & thank you for attending!
