Subject: Draft. Re: Hydro Rates

Ava, sorry I could not make it up to the Sault last week, but I wanted to thank you for the recognition you gave the OEB staff for their work on the FN Rates. I've now met with the Ministry and I expect that we will be reconvening in some format to work towards a prompt implementation. Now that the government has confirmed it's intent to move forward, we are posting the report. I've attached a copy here for your ease of reference.

Thank you and your team for all your support. I just returned from the briefing in the Hydro One rates.

Delivery rate for First Nations is gone! I am so happy!

It is a good day for our people!
