Ok. Invite Viive as well.

I don't think Marg should attend . And not sure about the other 2. The idea was not to fill the room but to include those managers that may benefit because of link to strategy or operational projects. Do you want to talk to her or should I?

Will get the deck in board books once EDA says it's final (monday). She has already loaded the original documents (LTEP doc, vision doc)

Managers....

John is bringing Sylvia
 MAA is bringing Ceiran and Lisa
 Lynne - Ted
 Andres (Brian is on vacay)
 Julie - John, Charlie and Margaret. (I extended the invitation to Julie to be polite. Didn't think she would respond)

The RPP Pilot deck has been sent to AT and DM. As a reminder that briefing is Tuesday morning.

Christine may change the start time of the OPG hearing on Wednesday so she can participate in the EDA presentation on LTEP and vision paper

EDA attendees are:

- Theresa,
- Chair: Vinay Sharma (London Hydro Inc.),

- Vice-Chair: Brian Wilkie (Niagara Peninsula Energy Inc.),
- Past Chair: Todd Wilcox, (North Bay Hydro Distribution Limited),

They have shared their deck. It is attached. I don't see anything alarming. The last 2 slides talk about regulatory streamlining.
