Rose, please find attached the updated Issues/Media protocol that reflects the changes discussed at Executive Team. The major change is the explicit inclusion of the Executive Issues Team and its role.

As well I have attached an "Issues" calendar. It is intended to complement the 90 look ahead, but is in a calendar format for you can see at glance the different activities at play over a 3-month period. It is colour coded so you can see the different types of activities – for example OEB announcements; Community meeting; Government/Ministry communications etc.

Happy to discuss and/or table at a future ET meeting.

John
