Subject: Ministers comment on Metro Morning

If we get any media calls I don't think we should engage. We can simply point to the RPP announcement and the rationale included there. This is not our issue to speculate on or surmise what information Cabinet had in making the decision.

Subject: here is the clip

[Here is the clip](#)

It starts with Todd Smith but then the interview with Thibeault begins shortly afterwards. At the 6:29 minute mark of the interview Galloway asks a question about trust and this is where the Minister references the OEB and characterizes that the OEB enacting a portion of the FHP on May 1st means that the OEB "trusts" the government.
