Subject: Employee meeting

In preparation for the meeting when you return, a presentation is being put together.

The portion that they are having trouble with is "The Year Ahead". Some of the high level themes will be taken out of the Business Plan but they are looking for your top 5 priorities

Some topics I've come up with are:

- Implementing FHP
- Support LTEP
- Finish Governance Model which will complete RRF and allow Adjudicative Model to begin
- Cyber Security
- Decoupling
- RPP pilots
- More information for the customer
- Customer Service review
- Natural gas expansion and harmonization with grant program

If I'm missing something let me know.

Neil
