Objectives of CAR

- Seek advice and input into the broad policy objectives of the OEB
- Provide an opportunity for stakeholders to dialogue directly with the Chair, Board members and the Executive team, on priority and emerging issues within the sector
- Facilitate an open exchange and dialogue with a focus on the broader public interest

CAR and other OEB Forums

- OEB recognizes and appreciates the value in maintaining ongoing dialogue with the broader stakeholder community on a variety of regulatory matters, policy issues and broader concerns
- Other forums include the Regulatory Affairs and the Industry Affairs Steering Committees (RASC and IASC)
- New CEO's Advisory Forum on Innovation to be launched in the fall

Accelerating Change

- Energy sector is experiencing a profound transformation in terms of scale, scope and speed
- Understand the importance of creating strategic alignment on regulatory policy and priorities
- Seek ongoing advice so we better understand and respond to real and perceived shortcomings of the regulatory framework and can enable a better future
- Need to chart a new path forward in a shifting and uncertain landscape

Outcomes & Next Steps

- TBD – from session – follow-up on Strat Plan discussion
- Scheduling of future CAR meetings:
 - Next meeting – Fall? (call for Agenda items in August)
