Subject: Re: OEB Community Meeting - Bracebridge

The last of the OEB Community Meetings to review the HON1 distribution rate application has ended, and ended well.

Strong consumer presentations focused on lack of local reliability, need for personal generators and overall lack of affordability.

CTV Barrie arrived around 8pm (just missing Kristi's presentation) and interviewed Kristi (awesome as always), filmed bits of Hydro One's presentation, and interviewed MPP Miller and a few consumers. The piece will air at 11pm.

Lakeland Hydro attended and aggressively questioned fair hydro plan and what happens when it ends and accused HON1 of using FHP to make their ask look less. They did not identify themselves (HON1 told me after the mtg).

And that's it for Hydro One Centre-Wellington and Enbrum next in mid-September.

Have a good night.

Subject: OEB Community Meeting - Bracebridge

Meeting is now underway.

About 45 consumers - fair number of seniors with a mix of some younger folk.

Two media outlets - Moose FM and Mary Beth Hartill from Metroland (Bracebridge Examiner).

Five presentations registered: Three consumers, Mayor Bob Young from Lake of Bays and MPP Norm Miller.

Photo attached.

Will send a summary post meeting.
