Importance: High

Hi Rose. As discussed last week please find attached the revised Annual Report copy. The highlighted sections show where we made edits and changes to address your questions/edits.

As well I have included the performance highlights section. It still needs some editing but wanted you to see it in case there are any major content or positioning edits you wanted to make.

If possible it would be great if we can get any edits back by the end of the week ... that will keep us on schedule.

Thanks. John
