Take a look at the latest but focus on slide 5.

**Rose's Comments**

Slide 5 - bullet on Cost Rules...should we have more...ie . To better align cost with benefits of investments ???..( maybe Brian can comment....sorry I don't have speaking points or haven't read background stuff...do we know what they will say and when we are going out with it for comment??)..Brian..I think intent was also to remove barriers to dx network investments , right???

Let me know any changes to roll in.
