Mr. Barber,

The Standing Committee on Justice Policy is reviewing Bill 161 which amends the Legal Aid Services Act.

I demand that the ability of Ontario's community legal clinics to serve marginalized people in our community be preserved. This requires the following changes to be made to the draft bill:

Reinstate "access to justice" for low-income and disadvantaged communities to the Purpose of the legislation.

Community legal clinics must be recognized as the foundation for the provision of clinic law services.

Reinstate obligations to provide legal aid services across Ontario.

Define community legal clinics as:

"community legal clinic" means a community legal organization structured as an independent corporation without share capital:

(a) whose board of directors are members of the community or communities served, or who have a substantial association or interest in the community or communities served;

(b) that provides legal aid services for the community it serves on a basis other than fee for service; and,

(c) that determines the legal needs of the individuals and communities served by the community legal clinic.

This is important to me and my community.

Sincerely,

Adriana Crupi

Dear Mr. Barber,

The legal clinic system in Ontario is important to me and to my community. Please listen to the clinics who are calling on the Standing Committee on Justice Policy to protect this system by improving the text of Bill 161.

Bill 161 must be changed so that the Legal Aid Services Act maintains its identification of legal clinics as the foundation for the provision clinic law services. Legal clinics must have the same Ontario-wide accessibility and clear definition and purpose that they do today. Legal clinics must be governed by the communities they serve and must not be impeded in providing access to justice for low-income and marginalized people.

Sincerely,
Alex Gabaldo

Mr. Barber,

The Standing Committee on Justice Policy is reviewing Bill 161 which amends the Legal Aid Services Act.

I demand that the ability of Ontario's community legal clinics to serve marginalized people in our community be preserved. This is more integral than ever before in this time of rapid anti-racist change.

The current proposed bill is racist. Making it anti-racist requires the following changes:

Reinstate “access to justice” for low-income and disadvantaged communities to the Purpose of the legislation.
Community legal clinics must be recognized as the foundation for the provision of clinic law services.
Reinstate obligations to provide legal aid services across Ontario.
Define community legal clinics as:
“community legal clinic” means a community legal organization structured as an independent corporation without share capital:
(a) whose board of directors are members of the community or communities served, or who have a substantial association or interest in the community or communities served;
(b) that provides legal aid services for the community it serves on a basis other than fee for service; and,
(c) that determines the legal needs of the individuals and communities served by the community legal clinic.

This is important to me and my community.

Sincerely,
Andrew Luba

Mr. Barber,

The Standing Committee on Justice Policy is reviewing Bill 161 which amends the Legal Aid Services Act.

I demand that the ability of Ontario's community legal clinics to serve marginalized people in our community be preserved. This requires the following changes to be made to the draft bill:

1.Reinstate "access to justice" for low-income and disadvantaged communities to the Purpose of the legislation.
2.Community legal clinics must be recognized as the foundation for the provision of clinic law services.
3.Reinstate obligations to provide legal aid services across Ontario.
4/Define community legal clinics as:
"community legal clinic" means a community legal organization structured as an independent corporation without share capital:
(a) whose board of directors are members of the community or communities served, or who have a substantial association or interest in the community or communities served;
(b) that provides legal aid services for the community it serves on a basis other than fee for service; and,
(c) that determines the legal needs of the individuals and communities served by the community legal clinic.

This is important to me and my community.

Sincerely,

Dorottya Szekely

"community legal clinic" means a community legal organization structured as an independent corporation without share capital:
(a) whose board of directors are members of the community or communities served, or who have a substantial association or interest in the community or communities served;
(b) that provides legal aid services for the community it serves on a basis other than fee for service; and,
(c) that determines the legal needs of the individuals and communities served by the community legal clinic.

This is important to me and my community.

Sincerely,

Jasmine Malibiran

Mr. Barber,

The Standing Committee on Justice Policy is reviewing Bill 161 which amends the Legal Aid Services Act.

I demand that the ability of Ontario's community legal clinics to serve marginalized people in our community be preserved. This requires the following changes to be made to the draft bill:

Reinstate "access to justice" for low-income and disadvantaged communities to the Purpose of the legislation.
Community legal clinics must be recognized as the foundation for the provision of clinic law services.
Reinstate obligations to provide legal aid services across Ontario.
Define community legal clinics as:
"community legal clinic" means a community legal organization structured as an independent corporation without a share capital:
(a) whose board of directors are members of the community or communities served, or who have a substantial association or interest in the community or communities served;
(b) that provides legal aid services for the community it serves on a basis other than fee for service; and,

MPP Roman Baber, Chair
Standing Committee on Justice Policy

Mr. Barber,

The Standing Committee on Justice Policy is reviewing Bill 161 which amends the Legal Aid Services Act.

I demand that the ability of Ontario's community legal clinics to serve marginalized people in our community be preserved. This requires the following changes to be made to the draft bill:

Reinstate “access to justice” for low-income and disadvantaged communities to the Purpose of the legislation.
Community legal clinics must be recognized as the foundation for the provision of clinic law services.
Reinstate obligations to provide legal aid services across Ontario.
Define community legal clinics as:
“community legal clinic” means a community legal organization structured as an independent corporation without share capital:
(a) whose board of directors are members of the community or communities served, or who have a substantial association or interest in the community or communities served;
(b) that provides legal aid services for the community it serves on a basis other than fee for service; and,
(c) that determines the legal needs of the individuals and communities served by the community legal clinic.

This is important to me and my community.

Sincerely,
Yvette Foster
