Subject: The bill

Dear the person reading this whatever you identify as,
I don't even know how to express my pain, how can you and the others compare semitism to Zionism, Zionism is an act that terrorizes innocent Palestinians. To compare the two is stupid pardon my language because you are comparing an act (Zionism) which formed in the late 1800s when a bunch of European countries didn't want the Jews so those outsiders formed Zionism, as away to create there own nationality. You may not understand what it feels like to be kicked out of your own land, the land your ancestors lived on for thousands of years the land you would have hoped to live in. It's a disappointment because you are supporting a terrorist group and if I where you I would look into what the Palestinians are going through because even when you learn, you will never understand so there shouldn't be a discussion on this the two are different and stop comparing the two because there are many Jews who are anti- Zionism. So I hope you understand where I am coming from and i hope will reconsider and get back to me because Israel is getting away with illegal colonization and I really would hope who can look more closely in to this other large situation

Please remember the Palestinians and think about the torcher they face everyday and I would advise you to look in to the attack on the Palestinians in Lebanon in the early 1980s and there is a trigger warning
