Hi,

I am the son of Minh Quoc Do, a deceased resident inside Erin Mills Lodge in Mississauga. My father died

because of complications from Covid19, he died because the home he was in did not take the virus seriously, he died because the group running the homes failed to provide necessary safety measures to ensure the safety of staff and the vulnerable residences in their care. He died because of negligence period. Like a parent of a minor that was not able to provide the necessities of life. Like a parent leaving a child unattended causing death or injury. Like a business allowing a patron too many drinks and letting them drive home. Like how a car manufacturer taking short cuts in safety and causing accidents. How is it that the publicly funded homes have very few or no cases at all? I worked part time delivering to dozens of these homes during the peak of the first wave...and NONE of them had any cases at all! The screening, the masks, the gowns, were they being done at these homes with breakouts? I doubt it.

I miss my dad, I'm sad for my mom missing my dad, the entire family and extended family of son's, daughter, sister, mother-in-law, grand kids, great grand kids, friends, we all miss him. It wasn't his time and someone has to be responsible, COVID is the swimming pool, the child was my dad, and the ones watching my dad is ultimately responsible for his death.

Please, if you pass this Bill, then no one will be accountable and it will set a precedent for other "businesses" to get away with murder. By allowing accountability, you are allowing those who made mistakes to rectify them and change for the better of future populations that will require care.

Thank you,

Trung
