

The death of Nancy June Gardner due to negligent care.

I just wanted to give you an overview,

My mom died on April 20 around 4:45pm. They had call me at around 3:45 PM to advise that she had a fever and was on oxygen and her condition did not look good.

At around 4:45pm they called me and advised me that she had died.

To me and my sister this was in excusable. She had to of had the fever and not feeling well earlier in the day or even the day before. The patients, since COVID they were confined to their rooms and had their breakfast/lunch/dinner in their rooms. You cannot tell me that they did not notice this before. If they had been confined to their rooms, the only way I can believe she got it was one of the staff brought it in or the person in the other bed had it. We don't even know if she was properly cared for if COVID happened.

Also my sister has been in contact with Tracy Richardson, who is the interim executive of Camilla care and she advised that one of the workers caring for my mom was fired and another one they have not been able to get in contact with her. She thinks she is in hiding. To us it seems that my mom was not cared for properly. This looks high suspicious.

When my sister talked to Tracey Richardson who advised that she would look into it my sister got the impression that she never knew anything about the INITIAL REPORT OF THE TEMPORARY MANAGER: CAMILLA CARE COMMUNITY

It may be more convenient to get a hold of my sister, Julie Ann Trajkovic either through email(I have attached her as cc) or by phone at 1-506-778-3939

I wasn't even given a change to be with her before she died. I work in Milton and by the time I took the bus to go down it would have been too late. If they would of let me know earlier, I would of definitely went down to spend last minutes with her.

Since my sister lives in NB she relies on me and if I was able to go down at least she could of been on the phone to talk to her even if she could not hear or understand

We are both devastated about not being able to say goodbye. We believe this Tracey is just dragging her feet so maybe we will just go away.

I hope this gives you an idea of how we feel,

Julie Ann Trajkovic
