I would like to thank the **Ontario Provincial Parliament's Standing Committee** on Justice Policy for the opportunity to submit my opposition to the Ranked Ballot Ban as proposed in Bill 218.

This ban is an attack on local democracy and strips municipalities of their ability to improve their democracy should THEY so choose. The provincial government has no mandate from the people of Ontario to impose this ban. The decision to utilize this form of voting system must come from the people via their city council, not the province.

It is unconscionable that the imposition of this regulatory issue has been attached to a bill focussing on the recovery of Ontario from Covid19. This action disrespects the people of Ontario who are trying so desperately to overcome the hardships they are experiencing due to this virus.

Please vote to support municipalities and their ability to improve their democracy should they so choose by voting against the Ranked Ballot Ban.

With gratitude,

Catherine Hunt
