To the legislative assembly of Ontario,

Bill 218 is illegal and unconstitutional. I do not consent to the passing of a bill that would remove liability from a government that is clearly unable to prove that the measures taken to protect others were less harmful than Covid-19. There is much evidence proving lockdowns hurt and kill more people than they help. There's much evidence showing lack of efficacy in community mask wearing as well as proof of harm to healthy individuals.

They asked for a 14 day lockdown to flatten the curve with intentions to lock us down as long as they could. This is outlined in Event 201, a simulation study as to what would happen during a coronavirus outbreak. This was released months before the lockdown. The intent to harm was deliberate and the Ontario government needs to be held accountable for the decisions made that may have killed and hurt more than they helped.

Regards,
Jessica Wilkins
