I am a 20 year resident of DeGrassi Street and I have witnessed this neighbourhood transform during this time to a thriving business and residential community. The above ground construction of the Ontario Line would have a devastating effect on this area, residentially and commercially. The elimination of any green space is a long term health hazard to the city and this neighbourhood, and pushing such a project through without a long term vision would crush commerce and livelihoods in our area. I am completely for better transit, but decision need to take in the cost benefit of its citizens and the city landscape as a whole. Please don't pass a bill that could do such damage to a vibrant part of this city.
