My name is Hong Chan. I am registered for Acupuncture and TCMP in Ontario. I was shocked by the news of revoking the Traditional Chinese Medicine Act 2006 and moving TCM into the public domain. This is a huge threat to public health.

TCM is strictly regulated in China, and TCM doctors typically go through 5 years of training. In unskilled hands acupuncture can cause life threatening injuries like pneumothorax and even death. The introduction of TCM ACT 2006 was definitely on the right track to keep TCM safe and the public safe.

I would request that you take serious consideration and remove section 5 from Bill 88, 2022 for the goodness and wellbeing of all Ontarians. Please find attached the signed petition for more detailed expression on this matter
