My name is Hui Li. I am a registered Acupuncturist and TCMP in Ontario. I have been practicing TCM in Ontario for more than 10 years with over 1000 patient visits each year. I was so shocked by the news of revoking the Traditional Chinese Medicine Act 2006 and moving TCM into public domain. This is a huge threat to public health.

TCM is strictly regulated in China, and the TCM doctors typically go through five years' training. For example, I graduated from the Beijing University of Traditional Chinese Medicine, a rigorous 6-year program. In contrast, in unskilled hands, acupuncture can cause life-threatening injuries like pneumothorax and even death. The introducing of TCM Act 2006 was definitely on the right track to keep TCM safe and public safe.

I would request that you take a serious consideration and remove section 5 from Bill 88, 2022 for the goodness and wellbeing of all Ontarians. Please find attached the letter and petition for more detailed expression on this matter.

Thank you for your consideration.
