My name is KE Fa. I am a registered Acupuncturist and TCMP in Ontario. I have been practising TCM in Ontario for 4 years with over 800 patient visits per year. Most of patients are resident in your riding. I was so shocked by the news of revoking Traditional Chinese Medicine Act 2006 and moving TCM into public domain. This is a huge threat to public health.

I deeply worried for my patient and public because, without 3-4 years education and training, acupuncture and herbal medicine can cause life-threatening injuries like pneumothorax, internal bleeding, body system disorder and even death. The introducing of TCM Act 2006 was definitely on the right track to keep TCM safe and public safe.

I am very sad and worried to see Ontario is going backward for the professional position and healthcare system. Public could be threatened from unprofessional unskilled hands and their safety needs your attention and highly regulation by TCM Act.

I would request that you take a serious consideration and remove section 5 from Bill 88, 2022 for the goodness and wellbeing of all Ontarians.
