To whom it may concern,

My name is Nancy Lan, I am a year two acupuncture student approaching the end of the program. I was totally shocked by the news of revoking Traditional Chinese Medicine Act 2006 and moving TCM into public domain. This is a huge threat to public health and public safety.

TCM is strictly regulated in most of the countries who respect TCM as holistic modality to help peoples' overall wellbeing , and need years of heavy loaded training. In unskilled hands, acupuncture can cause life-threatening injuries like pneumothorax and even death. The introducing of TCM Act 2006 was definitely on the right track to keep TCM effective as it suppose to and most important keep our citizens safe. After more than two years of pandemic, our health care system has been exhausted enough, having alternative and choices are good for everybody.

I would request that you take a serious consideration and remove section 5 from Bill 88, 2022 for the goodness and wellbeing of all Ontarians. Don't even mention I, myself as a student on OSAP loan

program and that is tax players money too.

Sincerely

Ontario citizen

Nancy Lan
