My name is Hongjing Yu, I am a registered Acupuncturist and TCMP in Ontario. I have been practising TCM in Ontario for 20 years with over 1000 patient visits per year. I was so shocked by the news of revoking Traditional Chinese Medicine Act 2006 and moving TCM into public domain. This is a huge threat to public health.

TCM is strictly regulated in China, and the TCM doctors typically go through five years' training. In unskilled hands, acupuncture can cause life-threatening injuries like pneumothorax and even death. The introducing of TCM Act 2006 was definitely on the right track to keep TCM safe and public safe.

I would request that you take a serious consideration and remove section 5 from Bill 88, 2022 for the goodness and wellbeing of all Ontario people.

Would you like to add any other information?

Keep acupuncture and TCM regulated!
