**Full name**

Mr Xiaojia Chen

**Paste submission**

My name is Xiaojia chen. I am a registered Acupuncturist and TCMP in Ontario. I have been practising TCM in Ontario for 20 years with over 1000 patients visits per year most of patients are residents in Toronto. I was so shocked by the news of revoking Traditional Chinese Medicine Act 2006 and moving TCM into public domain. This is a huge threat to public health.

TCM is strictly regulated in China, and the TCM doctors typically go through five years' training. In unskilled hands, acupuncture can cause life-threatening injuries like pneumothorax and even death. The introducing of TCM Act 2006 was definitely on the right track to keep TCM safe and public safe.

I would request that you take a serious consideration and remove section 5 from Bill 88, 2022 for the goodness and wellbeing of all ontarians. Please find attached letter and petition for more detailed expression on this matter.

**Would you like to add any other information?**

Remove schedule 5 from Bill88.

Make right decision.

Protect public health safety and interest first.
