

PUBLIC CONSULTATION

JOHN STREET PEDESTRIAN BRIDGE DESIGN

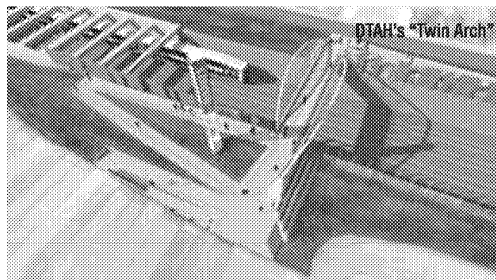

Metrolinx, an agency of the Province of Ontario, is helping transform the way our region moves by championing and delivering mobility solutions for the Greater Toronto and Hamilton Area (GTHA). As we invest in the future and build stronger transit infrastructure to meet the growing needs of the region, a number of projects are underway including many involving our GO Transit division. GO service continues to be expanded and improved to provide more choices for travel across the GTHA, meet increasing customer demand and attract more transit users in the future.

THE PROJECT

GO Transit is seeking your input on the new John Street Pedestrian Bridge that will be designed and built to cross the GO Transit rail corridor at John Street, just north of Lawrence Avenue West. Pedestrians and cyclists will still need to cross the CP Rail tracks at a level crossing as they do today.

Over the last year, GO Transit has been working with the John Street Pedestrian Bridge Community Advisory Committee (CAC) representing the Weston community to help guide the bridge design. The CAC has selected four bridge design concepts and GO Transit is looking for input from the community.

FEEDBACK

GO Transit is hosting a consultation period from February 27 to March 31, 2012 to get feedback from the community to assist the CAC to make a recommendation to GO Transit on a preferred design option.

You can review the design concepts and provide feedback at www.gotransit.com/gts, by visiting our community office at 1631 Weston Road (416-241-2300), or by attending our open house.

Open House

Date: Saturday, March 3, 2012

Time: 10 a.m. to 2 p.m.
(presentation at 12 noon)

Location: York West Active Living Centre
1901 Weston Road
Toronto, ON

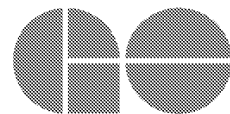

We look forward to seeing you there. If you require accessibility accommodation such as sign language or language interpretation, please contact us at 416-241-2300.
