

PROJECT NOTICE

NEW BUS SERVICING AND STORAGE GARAGE TOWN OF EAST GWILLIMBURY

THE PROJECT

Metrolinx, an agency of the Province of Ontario, is helping transform the way the region moves by championing and delivering mobility solutions for the Greater Toronto and Hamilton Area (GTHA). As we invest in the future and build stronger transit infrastructure to meet the growing needs of the region, a number of projects are underway, including many involving our GO Transit division. GO service continues to be expanded and improved to provide more choices for travel across the GTHA, to meet increasing customer demand and attract more transit users in the future.

The proposed garage will be located at 32 Bales Drive West, in East Gwillimbury and will be Leadership in Energy and Environmental Design (LEED) certified. This will meet GO Transit's operational needs, long-term growth and service improvements in the Newmarket, Barrie and Beaverton areas.

ENVIRONMENTAL PROCESS

The garage will be built in accordance with GO Transit's Class Environmental Assessment (EA) process.

This project is classified as a Group 'A' undertaking, a classification assigned to projects with either positive or easily mitigated environmental impacts. Group 'A' undertakings are considered to be approved under the Ontario *Environmental Assessment Act* and therefore are not subject to the full requirements of the GO Transit Class EA process.
