Notices are designed in three fold so that they conform for Canada Post Mailing guidelines for bulk mail.

Each flyer has been design with specific solutions most appropriate for that neighbourhood.

Most of the information that someone would need to get to and from the station is in the folder. For more specific details they can call the service provider with an informed question.

Building our Future!

Since 20XX, GO Transit and Metrolinx have invested \$XX,xxx into the local economy through the construction of new infrastructure projects.

Caption describing picture or graphic. Insert better graphic!

Some of these projects include:

(list of projects and locations)

List the LEED buildings.

Many of you have noticed the rapid work being done on the Union Station buildings. Some

of the exciting things that are happening include:

- insert picture of supports while new tracks supports being built and floors lowered
- Text about new atrium roof
- Text about green roof and how that will help the urban heat island effect
- Graphics about new concourse levels.

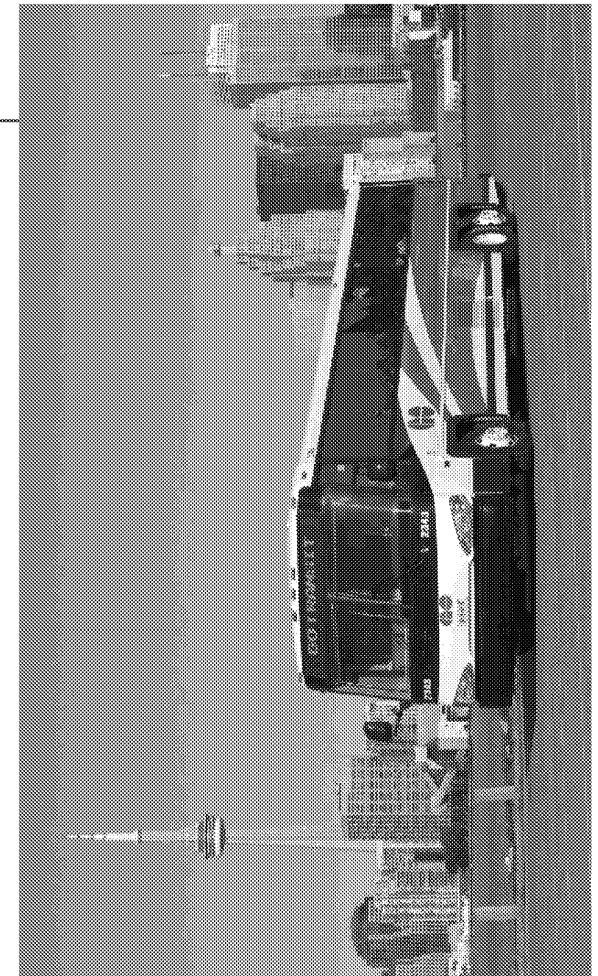

We know that the work of Metrolinx/GO Transit is disruptive now, but we are sure that you will be impressed with the new amenities, services and ease of use that you will have when the doors open to our new facilities. As we welcome the world in 2015 to the Pan Am games, we will certainly show our “best in class” in public transit.

Thank you for your support and patience during this process.

Need to customize the return trip for each front page panel!

GO Transit Keeping You In the Know

From June 2012 to approximately June 2014, your GO station will be undergoing a renovation . The new parking garage will hold more than XXX cars, serving you better and making it easier to travel on the GO!

In the mean time, space will be limited.

As a resident of the South East Oakville neighbourhood, you have many options:

- *Public Transit: Use Oakville Transit Route 25 Aspen Forest. The schedule is to the right. For any route updates, please verify times at www.oakvilletransit.com*
- *Cycling: Get fit while commuting! The ride is about 5km to the station. We recommend using Southdown Rd. to Lakeshore as there is less heavy traffic. We will be installing extra bicycle racks for your convenience.*
- *CarPooling: We will be doubling the number of carpool spots. Register with us at www.XXXXXXXXXX.com Get in touch with your neighbours and share a ride to the station.*

Clarkson GO Station June 2012 — June 2014

Locations that are options for Potential Shuttle services

Section #1 & 2

- Boundaries: Erin Mills Parkway, Winston Churchill, Sheridan Park Drive and The College Way
- North of the QEW
- Homes in this area are affluent
- 2.5—5 km from Clarkson GO
- **Customer Base: 400 commuters**
- No direct service to the station
- Medium density housing located along arterials
- Some condos/apartments

Section #3 & 4

- Boundaries: 403, Winston Churchill and Dundas St.
- Surrounded by 403 turn
- Homes in this area are affluent
- 3.5—6 km from Clarkson GO
- **Customer Base: 380 commuters**
- No direct service to the station
- Potential shuttle site, but would be a long running time and unsure of density of market....

Signage for Clarkson GO as an immediate measure
