**Subject:** Configuration Summary Ridership Updates  
[2013 09 12 UP System Config Summary D R7 ML, DY, MP, SM, JP, TS.pdf](#)

Hello Phil,

Hope your day has been going well. I updated the configuration summary with the new SDG ridership numbers from the May 2013 report. I've stored the word document on the G drive at

G:\Airport Rail Link\GENERAL\REPORTS\DRAFT\System Configuration Summary. I've included a version with track changes if you or anyone else would like to know what specifically has been edited. I'm now updating the Ridership Due Diligence as mentioned last week.

Best regards,

Tom
