Subject: Capacity Clarification for SDG Ridership Forecasts

Hi Mike,

As you know, SDG is currently working on updating our ridership forecasts. As part of this update, we would like to revise the assumptions related to capacity. Are we still assuming the following?

April to July 2015: 5 2-car consists

July 2015 and beyond: 3 3-car consists and 2 2-car consists

Thanks,

Phil
