ARL - summary of SDG forecasts - rev and riders by fare.xls

Daniel:

As discussed the report looks OK. Three relatively minor comments from me:

a) page 9 there should include a line or two that addresses the reaction from most people that August does not represent the business travel peak month. SDG did some analysis of this when the topic was raised last summer.

I assume the final "ppt based" report will be accompanied by a complete set of data files.

Stephan:

See attached. I believe this covers the high level summary thta you were talking about when we last met.
