Hi Jamie:

Exclusion per Committee Direction

Thanks

Stephan

Daniel,

As mentioned in Jim's email, please find attached supplementary tables and charts that have been presented in our final PowerPoint report.

This is produced in both excel 2010 and 2003 formats.

Please let us know if you need anything further.

Best wishes

Danielle

Daniel

Please find attached our final version of the slide deck that incorporates the comments set out by Bert in his email of 8th March to you. Apologies for the size of the file. We will forward the tables and charts as requested by Bert separately in the very near future.

We believe that this now concludes this phase of work as discussed with you previously. We can also confirm that all invoices in relation to this work have been paid.

Kind regards

Jim

Jim,

I think we will do our own overview/key messages presentation and can wrapup your report.

Some minor revisions below on which we can conclude this assignments.

Many thanks.

Daniel

Daniel:

As discussed the report looks OK. Three relatively minor comments from me:

a) page 9 there should include a line or two that addresses the reaction from most people that August does not represent the business travel peak month. SDG did some analysis of this when the topic was raised last summer.

Exclusion per Committee Direction

c) This draft did not cover some of the fare sensitivity work that was performed later in the year. I suggest a short appendix to highlight this topic. I think it could be condensed into 2 to 4 slides.

ridership, **Exclusion per Committee Direction** in one chart based on data files that I have access to. A variation of this plus one or two select graphs from the June presentation would cover the topic sufficiently in my mind.

I assume the final "ppt based" report will be accompanied by a complete set of data files.

Stephan:

See attached. I believe this covers the high level summary thta you were talking about when we last met.
