Thanks Denny:

Will follow up shortly.

Meanwhile, you may want to research for more info on-line if available to fill the gaps?

Stef

Subject: Ridership Graphs - Other Systems

Hi Stephan,

Attached is a slide deck with a couple of graphs from some of the ridership data that Andrew Sharp has provided. Some of the data is excellent while others are not quite useful (i.e. monthly for one year or lists only two years worth of data).

Each set of data is coupled with a trend line.

Have a great weekend!

Denny
