UP Express 2013 Ridership Forecast Update

DRAFT

August 21, 2013

- Results of the 2013 forecast are largely consistent with previous forecasts
- As part of this 2013 forecast, key assumptions were updated:

- **Exclusion per Committee Direction**

- Air traffic forecasts revised to account for updated passenger forecasts at Pearson Airport and impacts of Billy Bishop Airport forecasts
- Adjustments to the costs of competing modes: Airport Express Bus fare increase from \$23.95 to \$26.95, and more recently to \$27.95 in July
- No change to ramp-up assumptions (65%/80%/90%) over the first 3 years

- **Exclusion per Committee Direction**

Ridership Summary – By Station, Trip Purpose.

- The majority of UP Express riders will access our service at Union Station (79%)
- In 2015 we would expect at least 150,000 passengers (an average of 500/day) through Bloor Station

Estimated Ridership by Station¹

UP Passenger Trip Purpose¹

¹ Steer Davies Gleave, 2013

UP Express market share is aligned with other North American airports

Rail Market Share (%) at North American and Global Airports¹

Other Key Insights¹

- Most (63%) of the UP Express demand is abstracted from the taxi mode; 12% from Airport Express Bus and 25% from car travel (parking, drop-off)
- UP Express will capture 60% of the in-scope demand in the vicinity of Union Station; and 47% in the vicinity of Bloor Station
- 8.3% is well within range of other North American systems

¹ Steer Davies Gleave, 2013

Issue: Impact to other modes of travel

- As a result of UP Express, the largest impact to existing travel modes to Pearson will be to Taxis
- The forecast suggests that by 2020, the market share of total airport ground access will shift as follows:
 - Taxis will reduce from 25.7% to 20.5%
 - Drop-Offs from 34.1% to 32.8%
 - Bus from 8% to 7%
 - Parking at the airport from 11.7% to 11.2%

Next Steps

- **Audit Working Papers**
- Update public communications as a result of 2013 baselined forecasts
- Work with PPI, develop procurement for 2014 forecast
- Complete BCA Study to report on cost/benefit results by the end of 2013
- Study and report on how we will increase revenue and ridership through corporate bulk sales (B2B), which is an untapped but potentially large market for UP Express

Appendix - Issue: Cars of the Road

- As part of the 2013 forecast, SDG examined “cars off the road” which has been a core component of our public messaging
 - Currently, Metrolinx notes *UP Express will remove 1.2M cars off the road in its first year of operation*
- SDG found in the opening year, UP Express will remove at least 870K cars off the road (Apr-Dec 2015)
- Public messaging should be updated to state:
 - *UP Express will remove up to 1.2M cars off the road in its first full year of operation*

		2015	2018	2020
Car Trips Removed from Road (Millions)	Taxi	0.66	1.42	1.47
	Car (Terminal)	0.03	0.07	0.07
	Car (Reduced)	0.03	0.06	0.07
	Drop Off	0.13	0.31	0.33
	Rental Car	0.02	0.05	0.05
	Total	0.87	1.90	1.98
