Judy,

Mathew from RABS has the below request. Can I send him the last two quarterly updates for the ARL (June's is still draft, awaiting Bruce's comment), and these recent presentations. Is there anything else that we may have that would fulfill his request, which will be passed on to external consultants? There were a few other documents, but they are labelled confidential.

Shyvonne, fyi & do you have any documents that could fulfill Mathew's request?

Subject: ARL Info for Market Assessment Study

Hi Alison,

Further to my call a short while ago requesting for ARL info that will help the market research consultant to plan and design their survey, the info that I am looking for are:

1. Concept description and any accompanying stimulus material (maps, drawings, etc.)
2. Any current drawings, information about stops, length of trip, anticipated times, stations, etc
3. CI presentation on ARL

Can you please send this ASAP?

Thanks,

K.M.Mathew
