Good Morning:

I am writing this short note on behalf of Miisun Integrated Resource Management Co. to express our continued support of the Provincial Forest Access Roads Funding Program. Our company is a 100% owned First Nations forest management company that has been successfully managing the Kenora forest for over a decade with great success. The provincial forest access road program provides support for our local logging contractors, first nations employment and cost effective mill deliveries to our local mills. The continued support of the forest access road program will ensure that the forest industry will weather the challenges the industry is facing. Thanks again for your consideration.

Regards,

Shannon Rawn, RPF
General Manager
Miisun Integrated Resource Management Co.
