19Saenchiur flechey is a small family owned resort located on the West Bay of lake Nipissing. Tourism in Northern Ontario has always been hard. last year, it was the floods, the previous year it was the forest fires and this year is Covid19... So far, I had to reschedule clients to the month of September or July or give a complete refund on the deposit received. Between, insurance, municipal taxes Hydro One (rural rate) and yearly spring repairs (this year a new roof over the main lodge and over \$5,00 for the water filtration system), expenses are very high and there is no income coming in. We have received the CEBA loan and hopefully will receive the 75% wage subsidy which helps but it is not enough.
