I believe the government of Ontario must address climate change in everyway possible. Most importantly by not allowing development in the Green Belt in southern Ontario. New highway bypass are a terrible waste of money when the 407 is under utilized. The proposed bypasses will only promote new development. Which is probably the point, unsaid.

Additional funding is needed for housing the homeless. It is shameful that people are without housing in a wealthy province.

Long Term Care also is in need of greater funding for non profit homes and more legislation of for profit homes. Covid has exposed the weaknesses of privatization in this sector. There were far more deaths in for profit LTC homes and appalling conditions for the residents.

Ontarians deserve better health care. All hospital staff need to be treated with respect and paid fairly.

The wealthy and corporations must pay their share of taxes. Average people have carried the tax burden for far too long.
