Subject: Schedule 6 of Omnibus Budget Bill 229

TO: Members of the Standing Committee on Finance and Economic Affairs
cc: Julia Douglas, Clerk

Dear Committee Members:

It has come to my attention that, once again, this government is attempting to hide legislation that has significant and negative impacts within an Omnibus Bill. In this particular case, the environmental impacts could be dire.

If this was a good thing, there would be no need to hide it from the public. Indeed, because so much of the public is uninformed when it comes to these government bills, there are few who are even aware of how these schedules get hidden within the larger Bill. I am certain that, if they were aware, this is not something that they, or anyone, should condone. There is no explanation, from what I can discern, how this Schedule 6 is of any positive value. It is appalling to see how this government has been systemically gutting any and all environmental protection in this province, whenever possible, to the benefit of corporations and developers and to the absolute detriment of the constituents and the future of this province.

I understand that the Committee is meeting on Nov. 30th and Dec. 1st and 2nd. I would respectfully request that you take the good of the province into consideration when reviewing this legislation and **please remove Schedule 6 in its entirety from Bill 229.**

I support the important work done by Conservation Authorities, as we all should, in its efforts to protect people and property from harm and to protect this province's natural assets for current and future generations

Thank you.

Sincerely,

Jennifer L. Toews
