Paste submission

miss, Sheila Tusso.

regarding: BILL 229

I demand the removal of SECTION 6 from BILL 229.

I personally live in a city (Richmond Hill) slowly allowed to be eaten away by perpetual construction against the will of its residences, and its politicians are fully aware of our sentiment.

I have personally seen people who I did not vote for, nor represent me, use this Covid pandemic to their advantage and found ways to sell off what was once park-land while everyone is far too busy with keeping themselves safe.

a gross miss use of power and I see this as no different.

I already can see what is going to happen to the over development of our city without proper city planning and this will cost Ontario far more in the long run to fix it, on top of what the pandemic recovery will cost us for years to come, considering our current deficit.

its is fair to say that the people WANT the removal of SECTION 6 from BILL 229, this is a fact, but let me argue that to let land be available for some random developers that do not, by any stretch of the imagination, have the communities interests at heart will cost said communities, cities, and ultimately the province through the social programs that are already underfunded.

and please don't say that this will help anyone with the "affordable housing" crisis, that is a lie and in facts it will make it worse by driving prices even higher.

the "housing" being constructed are so outrageously priced that the down payment is a million, and the lowest rent in this area is \$700 for a shoebox while ODSP still thinks \$500 is ok, so no, don't even go there.

this will cost us in the long run and that is something we can not afford right now and the citizens don't even what.

remove of SECTION 6 from BILL 229.
