Conservation Authorities with
Schedule 6**

Hello,
I am astonished and outraged that the Ontario government would try to slip through something which to Ontarians is so important and this critical time in our history as we fight with Co-vid-19. We must protect nature and all that it gives us and the land provides us with places to be calm; to walk; to find peace. People need to have the outdoors and to be able to walk and enjoy all that Ontario has always been able to offer us. It would be a terrible deed to diminish these very beautiful and wild places in order to give those who covet the land, more places to make money....a terrible misuse of power of the Conservative Government.
I have never votes conservative and I go out to campaign to bring in other parties. I have been very impressed with the way Ford is handling the pandemic and was considering voting for him next election...however, with this cover-up I will continue to vote against all conservative governments who greedily are only out for the rich

guy.
