Subject: Bill 229 Schedule 6 and 8

Hello

I wish to state my strong opposition to the continued attack on our environment as shown in Schedule 6 and Schedule 8 in Bill 229. I could not be more opposed.

I live in Peterborough and wholeheartedly support my local Conservation Authorities and benefit from all the great work they do. Anyone with any knowledge of climate change and mitigation knows the great value of forests and wetlands. While Otonabee Conservation planted 5690 shrubs and trees with the help of youth, the Ontario Government allows Old Growth Forests to be destroyed. Instead of protecting wetlands from developers, MZO are granted to allow them to be paved.

Schedule 6 and Schedule 8 of Bill 229 must be removed!

I am angry. I cannot watch silently anymore.
