

November 25, 2020

Premier Ford, Steward of Ontario;
Minister Philips, in charge of Finances;
Minister Clark, in charge of our Municipalities and Housing;
Minister Yakabuski, in charge of our Forests and Ontario's Natural Resources;
Minister Yurek, in charge of our Environment and Parks and overall Conservation;
My MPP, Jim Wilson,

Dear Premier, Ministers and MPP Wilson,

I ask that you respect our wilderness lands and all that the Conservation Authorities do to help protect our spaces, water and natural habitats.

You should not be dismantling the importance of the Conservation Authorities as proposed in the changes to the Conservation Authorities Act, Schedule 6 of Bill 229.

Hiding this drastic change in the Budget Bill is not right.

Your role is to provide hope for our future not to destroy it.

I am speaking up against this, both for myself as well as all those who can't speak for themselves – all of us who rely on you and the Conservation Authorities to protect Ontario's naturalized lands, water, soil and our collective well-being.

Thank you.

Susan Antler
