Committee Clerk

Standing Committee on Finance + Economic

Attention: Julie Douglas

Madam

Please support our Conservation Authorities to help protect our environment and water supply by removing the amendments to the CAA from Bill 229.

I live very close to the Nottawasaga Bluffs Conservation area which now, thru Covid 19, may have as many as 40 cars in the parking area. City people know how health promoting being in nature is.

Harris unlocked our Devils Glen Provincial Park.

We need our government to support healthy citizens, healthy water supplies and a healthy environment

It will be challenging enough for our kids and grand kids to pay for all our new shoulders, knees, eyes and long term care.

Consider giving us all a break by allowing

the Conservation Authority to protect our
environment for our benefit.

Sincerely

Heather Baker
