I am extremely concerned about the changes proposed in Schedule 6 which will affect the operations of our Conservation Authorities. Our conservation authorities provide an incredible service as they regulate and protect the entire watershed and act as a third party, which allows them to keep their mandate of protecting our water/environment, as well as protecting people from disasters such as flooding, and other damage, independent of local interests. The proposed changes will destroy this work and allow changes that will irreparably harm the environment and people of Ontario. There is no reason that I can understand for these changes to be made. I am asking you to please reconsider this for the future of our beautiful province."
