Paste submission

I assume this bill contains the new regulations for the blue box program. If so, these regulations need to be rewritten. They will not improve the blue box situation, which is a mess. Please remove them from this bill and reintroduce them as a separate bill, holding hearings on it so people like me can contribute our views.

Would you like to add any other information?

I delve into blue containers daily, and I spend a lot of my time moving garbage from them into the garbage containers. There has to be a way to educate people better in what goes in each container.
