# PROGRAMME DESCRIPTION

## The Legislation

The legislation under which the Board functions is The Compensation for Victims of Crime Act, 1971, which came into force on September 1, 1971 superseding The Law Enforcement Compensation Act, 1967.

The Board is required by the Act to find the commission of a crime (in the principal class of application coming before it). A basic qualification for the consideration of an award is that there must be adequate and reliable evidence in this regard. In addition, the Board is required to consider all relevant circumstances including the behaviour of the victim at the time of the incident and the co-operation given by the victim to the law enforcement agencies.

## Subrogation

The Board is subrogated to all the rights of any person to whom payment is made under this Act, to recover damages by civil proceedings in respect to injury or death.

## Hearings

The members of the Board, of whom six are on a part-time basis, usually sit in panels of two.

During the fiscal year, hearings, in addition to those held in Toronto, took place in Thunder Bay, Sudbury, Sault Ste. Marie, Windsor, London and Ottawa. This is done to facilitate applicants, and to generate a better understanding of the work of the Board.

## Administration

The administrative staff of the Board is comprised of the Registrar, the Chief of Investigation and two investigators, in addition to a clerical, stenographic and secretarial staff of eight. This small staff has been most dedicated in its efforts to maintain a high standard of service to the Board and to the public. Improvement in procedures by the staff have enabled the Board to increase its output significantly.

## Productivity

The Board heard 713 applications as against 570 in the previous fiscal year which represents an increase of 25%. Total awards granted increased by 8% from $1,611,836 to $1,748,484 while the average award declined from $2,328 to $1,960 or by 15%. This decline is probably due to an increased proportion of the minor claims, arising from a wider awareness of the existence of the programme. Procedures were developed for the hearing of child abuse cases, in consultation with the Official Guardian and representatives of the Ministries of the Attorney General and Community and Social Services. Under these new procedures two such cases have been heard and the decisions completed.

## Public Awareness and Workload

Large posters, together with a supply of explanatory brochures, are displayed in hospital emergency wards and staff lounges. The various police forces throughout the province have been provided with wallet-size cards which are designed to draw to the attention of the victims of a crime of violence that they may be eligible for compensation and advising how to make the application to the Board. The increase in the number of applications from 971 two years ago to 1219 in this fiscal year is, no doubt, in part due to these measures.

## Cost Sharing

Awards made under The Compensation for Victims of Crime Act are cost shared between the Federal Government and the Government of Ontario. The contribution by the Federal Government amounts to 50% of the awards (net of any recoveries) to a maximum of ten cents per capita of the population of Ontario. For the fiscal year 1977-78, this share amounted to $811,928.57
